Subject: Application of TD Rule 60.3, Records Kept

In the application of TD Rule 60.3, Records Kept, and, the Train Dispatcher is responsible for insuring OS times are in place for the first location traversed and the last location traversed on the BRC prior to manually releasing a train sheet

For the most part these records should be populated by TMDS.

However, if the times are not auto-populated, the Train Dispatcher must input this information manually, prior to releasing the train sheet.

These records are imperative for proper billing of overhead trains and other movements that traverse any portion of the BRC.
