

# THE BELT RAILWAY COMPANY OF CHICAGO

## Transportation Notice

**# 2025 - 001**

**Effective Saturday June 7<sup>th</sup>, 2025.**

**To:** All Transportation Employees

**Subject:** Change in Hump Speeds (OCU Canac Control)

The BRC has changed the programming of Hump Speeds on all locomotives. This programing will change the locomotive speed for the various positions of the Speed Selector on an Operators Control Unit (OCU) when using a Hump Control OCU.

Below is a chart indicating the programmed speed for each position of the Speed Selector when using a Hump OCU, changes only apply when using a Hump OCU's, no changes in programming for locomotive speeds have been made on Canac Yard OCU's.

The use of the Coast feature is also now permitted when using a Yard or Hump OCU. Below is the Speed associated with the Speed Selector of Hump and Yard OCU, the highlighted areas are the recent changes, please show these changes in your BRC OP-1 Manual.

| <u>Yard OCU speed selector</u> | <u>Miles Per Hour</u> | <u>Hump OCU Speed Selector</u> | <u>Miles Per Hour</u> |
|--------------------------------|-----------------------|--------------------------------|-----------------------|
| Stop                           | 0 MPH / Stop          | Stop                           | 0 MPH / Stop          |
| <b>Coast</b>                   | <b>Coast</b>          | <b>Coast</b>                   | <b>Coast</b>          |
| Coast B                        | 15 lbs Brake Cylinder | Couple                         | 1.7 MPH               |
| Couple                         | 1 MPH                 | Hump                           | 1.8 MPH               |
| 4                              | 4 MPH                 | Hump Fast                      | 1.9 MPH               |
| 7                              | 7 MPH                 | 4                              | 4 MPH                 |
| 10                             | 10 MPH                | 8                              | 8 MPH                 |
| Max                            | 15 MPH                | Max                            | 10 MPH                |

**Chris Gorski**  
**Assistant Superintendent -Transportation**
